THE WATERLOO PRESS BRICK COMPANY propose purchasing a tract of 187 acres of land within a short distance of the city of Washington, and establish an extensive plant for the manufacture of Press, Ornamental and Common Brick by the improved semi-dry process.

The Company has been incorporated under the laws of Virkinia with a capital stock of \$200,000, consisting of two thousand (2,000) shares, at a par value of one hundred dollars (\$100) per share. But 50 per cent of the par value of the stock is to be called for, as more than enough to pay the balse 'e due on the tract will be secured in profits, an. oun the sale of surplus land.

Of the \$600, 0 paid in \$50,000 constitutes the first payment of the land and the remaining \$50,000 is to be expended in buying the plant and affording a working capital.

No further payment upon the land will be due for two years.

ABOUT THE LAND.

The land is admirably situated just beyond the end of Long bridge on the line of the Washington and Alexandria R. R. It is near enough the city to supply local trade by carts, and being on the line of a railroad the entire output of the plant could be shipped to any po nt in America.

The tract contains 187 acres, of which about 90 acres is ciay land of the finest quality. Experts who have examined the clay bed affirm that his unusually pure and has an average deposit of about 25 feet.

CLAIMS AGAINST CHILE. A Commission to Be Appointed to Settle Those of American Citizens.

WHAT MINISTER EGAN HAS ACCOMPLISHED UNDER GOV. Buchanan Explains His Act in MANY CLAIMS ARE OF LONG STANDING-THE NEXT STEP TO BE TAKEN.

The United States and the government of Chile have definitely agreed upon the appointment of a claims commission to meet at Washington to settle the long-pending claims of citizens of this government against the little South American republic.

American republic.

This action the probability of which was first announced by the Star is the result of negotiations between Minister Egan, acting under instructions of the State Department, and the new administration which is now conducting Chilean affairs.

Secretary John W. Foster announces today

the receipt of a cablegram from Minister Egan conveying the intelligence that an agreement has been reached. The result of the negotia-tions was received with satisfaction at the State Department and will be a source of gratifica-tion to the citizens of the United States, who have been endeavoring for many years to get reparation for losses inflicted upon them in the conduct of their commercial enterprise by the Chilean government. MANY LONG-STANDING CLAIMS.

A STAR reporter was informed at the State Department today that some of these claims date back for half a century, and many of the original claimants are dead, leaving their executors the task of endeavoring to obtain justice.
The greater number of the claims, however

grew out of the war between Chile and Peru, which was waged twelve years ago, and resulted in damage and loss to the commercial enterprises of citizens of several nations. Every government except the United States has succeeded since then in obtaining reparation for its mariners and merchants. This government alone has been relegated to the rear of

It will still be a long time, however, before the claimants see the color of their money. The agreement just reached is but the first step toward the accomplishment of the final result. A great many forms will have to be gone through with and considerable manipulation of diplomatic red tape before the commission comes finally down to the question of the dollars and cents involved. A claims commission is simply a board of arbitration and must be organized by treaty and the ratification thereof.

THE NEXT STEP TO BE TAKEN. The next step will be for Minister Egan to send the terms of the agreement home for approval. The treaty may then be submitted to

NASHVILLE, TENN., Aug. 11 .- H. Clay King,

correspondent of the chief executive this morning.

"With pleasure," replied the governor, "and I will do it briefly. First, I thought that King should have had a change of venue. Affidavits to the effect that Juror Smith had communicated with outside parties and expressed an opinion about the case were filed with me. These affidavits could not be introduced in the court of record because it was too late. The action of Juror Mustin and of the jury in going to Arkansas to deliberate upon the case also had their weight; the dissension of one of the supreme judges in defense of partial insanity, the pleadings of his wife and children and the most prominent men of the country, besides the hundreds of letters and petitions; these were my reasons for commuting the sentence. thrown off by a floating tie.

Recent rains had swollen the river until it overflowed and filled the cut with water. Several cars were pulled from the track by the caboose. One of them knocked down one span of the bridge over the river. Frank Le.nard, brakeman, of West Plains, Pa., was killed and the following were wounded: W. Raymond, concussion of the brain; E. Waldo, internal injuries; J. F. Crawford, sprained ankle and internal injuries; John Morgan, body bruised; James Quick, slight bruises; John Mangan, slight bruises.

The dead and wounded are all railroad men. The caboose containing them fell forty feet, to the bed of the river, and was shattered into fragments. It is thought three of the wounded will die.

The local physicians who have been attending the cases say that exaggerated reports have been circulated and that they do not believe there is any more immediate danger of cholera appearing in this part of New Jersey than in any other state of the country. Most of the persons who have been stricken down with the dysentery were women and children. The deaths were principally among small children. The same disease has made its appearance in Spottswood, another small village about five miles from Helmitta. The persons attacked there complain of the same symptoms, but there have been no deaths thus far.
